

Mahim Katiyar

Kanpur, India mkatiyar_be23@thapar.edu +91-9120545490  mahim83  mahim-katiyar

EDUCATION

Thapar Institute of Engineering and Technology, Patiala	2023 – Present
B.E. in Computer Engineering — CGPA: 8.39	
Woodbine Gardenia School, Kanpur	2022
Class 12 (CBSE) — Percentage: 95	
Woodbine Gardenia School, Kanpur	2020
Class 10 (CBSE) — Percentage: 97.8	

SKILLS

Languages: C, C++, Python, SQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Backend: FastAPI, Pydantic, REST APIs

Cloud & DevOps: Docker, AWS, Git, GitHub

AI/ML: Machine Learning, Deep Learning, Natural Language Processing (NLP)

Frameworks: TensorFlow, PyTorch, Keras, Scikit-learn

Libraries/Tools: Pandas, NumPy, Matplotlib

Spoken: English (Fluent), Hindi (Fluent)

PROJECTS

Pneumonia Detection using Transfer Learning	May 2026
- Developed a pneumonia detection system using chest X-ray images and transfer learning for binary classification. - Implemented and compared DenseNet121, ResNet18, and MobileNetV2 using TensorFlow/Keras and PyTorch. - Applied image preprocessing and two-phase fine-tuning with pretrained ImageNet weights. - Evaluated performance using Accuracy, ROC-AUC, Precision, Recall, and F1-Score, achieving 90.87	
Python Package for TOPSIS (Multi-Criteria Decision Making)	Jan 2026
- Developed a reusable Python package implementing the TOPSIS algorithm for multi-criteria decision making. - Built a CLI supporting CSV/XLSX datasets with automated validation of weights and impacts. - Implemented weighted normalization, ideal solution computation, and ranking logic. - Structured the package following standard Python packaging conventions for reuse and distribution.	
Fake News Classification using NLP and Deep Learning	Apr 2025
- Developed a fake news classification system using (NLP) techniques and deep learning. - Performed text preprocessing including tokenization, stop-word removal, stemming, and sequence padding. - Implemented a Bidirectional LSTM model using TensorFlow/Keras for binary classification of news articles. - Evaluated model performance on real and fake news datasets	

EXPERIENCE

ELC Summer Internship, Thapar Institute of Engineering and Technology	June 2025 – July 2025
- Contributed to AI-based HCI system for ADHD detection using EEG signals. - Applied LSTM, BiLSTM, CNN, and VAE architectures for EEG-based analysis. - Performed EEG preprocessing, model training, and evaluation.	

POSITIONS OF RESPONSIBILITY

Mess Secretary, Hostel B	Aug 2024 – May 2025
- Managed mess operations and coordinated with staff to maintain service quality. - Led a team of 30 members for planning and execution of Hostel Night.	
Member, Paryavaran Welfare Society	Oct 2024 – July 2025
- Contributed to organizing Econigma 5.0 and sustainability-focused campus events. - Assisted in coordination and outreach for workshops and competitions.
